## PROFESSIONAL ROFILE

I am a highly dedicated demographic analyst with working knowledge in the field and classroom of data collation, management and strategy. I have a track record of developing local and easy-to-deploy solutions in statistical software; designing digital art and websites; planning and managing IT-related projects. Based on my education and work experience, I have developed proficiency in design, data analytics and machine learning.

## CAREER OBJECTIVE

I desire to work/intern in a progressive environment where I can achieve excellent results and increase the company's profitability; and gain more experience within the role.
